By the beginning of the third week convalencence begins, and by the end of the week the fever about Dr. Greene as a physician and his most has terminated.

as a rule by about the tenth day. Relapses are and well known among the eminent physicians rure. A person is seldom attacked more than of this city, and the great and grand work

Typhus is not nearly so contagious as some other diseases. It originates in crowded conditions, and its spread is mainly confined to such conditions. It is almost unknown in the rural districts. It does not spread from house to house. A free circulation of the air arrests the intectious principle, so that a patient can the country-all these are considerations be safely isolated in his own house.

While in typhoid fever the infection is mainly in the discharges, in typhus it is not convey the infection unless strongly impregnated with it; hence the lever is not likely to be communicated by an attendant.

The youngest barber known to work in a Subjects Important to the Community.

Consider.

Life and health.

Life and health.

These are great questions.
And they profoundly interest thousands.

Did you ever stop to think what an enormous proportion of the community suffers from ill-health, from weakening and prostrating dislasine of the box she put a gathered silk cushions, one on the lid of the box and the other at the extreme end. The drawer was and long-standing diseases the world holds

That is why we unbesitatingly sa people are profoundly interested in neatly sandpapered and polished and served ; and valuable course of free illustrated lectures now being given in Chickering Hall by the emilectures great because they are perfectly illustrated by the stereopticen with magnificent disaged, perhaps despairing sufferers, just how s cure from their compisints can be bad.

And in this connection we would say a word remarkable skill and successes in curing dis-When the disease proves fatal death occurs cases. For many years he has been prominent achieved by him in combating and overcoming human mirery, the marvellous, not to say won-derful, cures he is constantly effecting in all forms of chronic and nervous diseases, the enormous magnitude of his medical practice, which is without doubt the largest of any physician is the United States, as the rick visit hi bave given Dr. Greene the

Highest Reputation

among our people, and especially among the cued from premature death.

Dr. Greene is a graduate of one of the highest and best medical colleges in this country, and is a specialist in the cure of that large class of af-fections known as chronic and nervous diseases. He moreover discards entirely the use of all poisonous druws, and uses only harmless vers ence for many years in treating and curing all searches and investigations among those won-merful remedies, have made him the most suc-cessful specialist in the cure of his class of diseases in this country. The absolute certainty with which lingering and long-standing diseases

cured is simply marvellous. Ordinary affections like catarrh, stomacl troubles, kidney and liver complaints, blood diseases, rheumatism, Leuralgis, female complaints, &c., are cured almost like magic by these wonderful medicines. It is in curing those most serious diseases like paralysis, heart ity, brain exhaustion, pervous prostration and the many other terrible forms of nerve disorder that the great and wondrous skill of this mos

despairing sufferers have been perfectly and apletely restored to health and strength, and Thousands More Are Being Cured

names of persons who have been cured by Dr. Greene, cases, too, which were prostrated by extreme debility, discouraged, disheartened hopeless, many of them having been pronounced incurable by other doctors and given up to dis. Let your complaint be what it will—whether some ordinary form of disease, which has become chronic and baffled your family physician. or those most serious diseases which are under mining your strength, prestrating your vitality nd fast hurrying you towards a premature deat do not fail to consult Dr. Greene at once, per-sonally, if you can, at his office; if not, by de-scribing your case to him by letter, and we promise you results immediately which will lift you out of your discouragement of mind, show

you that you can and will be cured and soon re-store you to health and strength. And another great advantage

Dr. Greene can be consulted free or write to him in regard to your disc It is a sad fact, which many realize, that the high fees charged by most physicians are a very serious burden uoon ratients, especially when the cost of having their prescriptions filled is added. This burden Dr. Greene does away with entirely by charging no fee whatever. The only charge made under any circumstances is the price of the medicines necessary to cure, and as the Doctor has all his medicines prepared in his own extensive laboratory, under his direct supervision, the cost of these wonderful remelies is very reasonable.

In fact, the treatment is within the reach of all, and we should advise our readers who suffer from any form of disease, and who have

Failed to Find Relief

to consult Dr. Greene immediately. His office s at 35 West 14th st., New York. If you cannot case, and he will return an answer perfectly explaining your disease, giving advice. &c., with-cut charge. The Doctor has an enormous corre-spondence from all over the United States, and employs reveral stenographers and typewriters. om he dictates his answers to patients.

If you write Dr. Greene a full description of your complaint, its symptoms, &c., he obtains perfect understanding of your disc enabled through long experience with simils foot of the glass with the right hand and quickly invert the glass in order to prevent exact medicites to effect a cure. For such consultation and advice by letter there is no charge whatever. After receiving the doctor's answer to medicines to cure if you decide to treatment and wish to use his medicines. In all

such cases the cost will be for the medicines only, which will be always plainty stated. This evening and Wedne day evening at 8 o'clock, in Chickering Hall, Dr. Greene will give free private lectures to men only, the lectures teing completely and accurately illustrated by dissolving views. No men should missthese lectures if he can possibly attend, as the subj presented are of profound interest. On Tuesday afternoon at 3 o'clock there will be a free private illustrated lecture to indies only. Ladies who are out of health should not miss this opportanity to learn all about their troubles and raise
